CAREER OBJECTIVE

Data Science student (3rd year, GPA 3.8/4.00) building practical, hands-on skills in Python, Pandas, NumPy, and SQL through IBM's Data Scientist track (DEPI). Seeking an entry-level Data Analyst or Data Science internship to turn raw data into clear, actionable insights for real business problems.

TECHNICAL SKILLS

Programming & Data Analysis: Python, Pandas, NumPy, SQL, OOP (C++), Statistical Analysis

Web Development: HTML, CSS, JavaScript, Bootstrap, Vue.js, Django, Django REST APIs

Tools: Git, GitHub, Jupyter Notebook

Core Concepts: Data Structures, Algorithms, Database Systems, Machine Learning Fundamentals, Systems Analysis & Design

TRAINING & PROJECT EXPERIENCE

Data Scientist Track — Digital Egypt Pioneers Initiative (DEPI)

Jul 2026 – Dec 2026 (In Progress)

Ministry of Communications & IT (Egypt), curriculum designed by IBM

- Completing 21 weeks of hands-on training covering Python for Data Science, SQL, Data Analysis & Visualization with Python, Machine Learning with Python, MLOps/MLflow and Hugging Face, and a Capstone Project.

Web Development Program — 120 Hours

Jul 2025 – Sep 2025

ITIDA / TIEC / Creativa Hub, Benha

- Built full-stack skills across 120 hours of hands-on training in HTML, CSS, Bootstrap, JavaScript, and Vue.js, plus Python and Django (including REST APIs and login/signup authentication).

Google Developer Groups (GDG) — Flutter Track

Certificate of Completion, 36 Hours

Completed 36 hours of hands-on training on Flutter development as part of Google Developer Groups (GDG) community program.

EDUCATION

B.Sc. Computer Science & Artificial Intelligence

Expected 2028

Benha University, Egypt | GPA: 3.8 / 4.00 | Entering 3rd Year

Coursework: Algorithms, Data Structures, OOP (C++), Systems Analysis & Design, Database Systems, Statistical Analytics, Machine Learning Fundamentals

EXTRACURRICULAR ACTIVITIES

English Access Microscholarship Program — Amideast Education Abroad

Jan 2021 – Jun 2022

- Selected for a competitive, long-term English language and leadership program among a nationwide applicant pool.
- Developed public speaking, cross-cultural communication, and creative writing skills through 18 months of hands-on coursework, presentations, and volunteering.

Public Speaking & Technical Presentations

- Delivered multiple technical and non-technical presentations in university and external settings, building audience engagement and communication skills.
